SENATE'S LAST DAY.

Members of That August Body Ready For Adjournment.

NOTHING MORE FOR THEM TO DO.

Both Parties Have Agreed to Vote on the Roach Investigation Resolution, Clear the Calendar of Nominations and Inform the President That They Are Ready to Adjourn.

WASHINGTON, April 15.—The session of the senate yesterday was its longest in open session and the most interesting since the extraordinary session began. The day was passed in debating the proposed Roach investigation. Unless the plans of the leaders of both parties miscarry, today will see the session end.

In the executive session yesterday afternoon just before adjournment a tacit agreement was entered into between the Republicans and Democrats that today there should be a vote on the resolution proposing an investigation of Senator Roach's career. The calendar cleared of the nominations, and that a committee should notify the president the senate would adjourn unless he desired it to remain in session longer. It is understood that the Democrats will vote down the proposed investigation of Roach, the Republicans being willing the session should close without an investigation if the Democrats will go on record to that effect.

When the senate met yesterday Mr. Chandler (Rep., N. H.) had obtained Thursday unanimous consent that he should address the senate yesterday in support of that resolution, and he did so, at much length. But all the point and interest was at once taken out of his speech by Mr. Roach rising, as soon as the journal was read, and expressing his entire willingness and desire to have the investigation made, and had only refrained from proposing it on advice of his Democratic colleague.

Mr. Chandler was replied to by Mr. Voorhees (Dem., Ind.) and at the close of his speech, Mr. Harris (Dem., Tenn.) moved to lay the resolution and the amendment on the table; and only withdrew that motion because it was undebatable and Mr. Platt (Rep., Conn.) desired to reply to Mr. Voorhees.

An effort was made by Mr. Hoar (Rep., Mass.) to have a time fixed at the present session for taking the vote on the admission of the three senators appointed by the governors of the states of Montana, Washington and Wyoming; but objection came from Democratic senators, who said, however, that they would confer upon it. The resolutions for the investigation of the claim of Mr. Ady to a seat in the senate for the state of Kansas, and for an inquiry into the conditions of the territories of Arizona, New Mexico, Utah and Oklahoma, heretofore offered, were taken up and agreed to.

NEW POSTMASTERS.

One Hundred and Twenty-Nine Appointed by Mr. Maxwell.

WASHINGTON, April 15.—The total number of fourth-class postmasters appointed yesterday was 129. Of this number 82 were to fill vacancies caused by resignations and deaths, and 47 by removals. Of the 47 postmasters removed 44 served four years or more. Those in Ohio, Indiana and West Virginia are as follows:

Ohio—Ash Ridge, Mrs. A. S. Campbell; Avon Lake, A. H. Tonanock; Boggs, R. F. Bostick; Bradford, S. S. Sowers; Butcher, S. J. Gallagher; Canal Winchester, J. Palsgrove; Elmville, J. L. Scale; Litch, J. M. Vaughn; Erlin, H. B. Dickman; Geauga Lake, C. A. Squires; Laura, J. W. Henderson; Marshall, J. N. Hughes; Newmarket, J. R. Gruvee; New Moorefield, Frank Kennedy; Nobleville, Joseph Archer; Olive Green, W. P. Smith; Perryopolis, William Bryan; Rawson, E. L. Nowan; Tinney, W. L. Wright.

Indiana—Burney, E. R. House; Canaburg, Emma Clarke; Clifty, W. J. Grant; Coal Creek, W. R. Etchinson; Florida, W. H. Barnes; Fountaintown, C. Lisher; Huntertown, J. A. Noonan; Kewanna, W. O. G. Cook; Knightsville, Scott Inge; London, Mrs. E. Means; Mains, W. P. Bowen; Mellett, B. P. Ritey; Millhouse, Joseph Herbert; Newville, William Miller; Providence, A. C. Deer; Ray, W. Teeters; Rosedale, T. N. Walters; Versailles, J. L. Zinger. West Virginia—Benson, N. M. Talbott; Burdett, William Carpenter; Cairo, C. H. Scoville; Cashmere, W. J. Hines; Central City, T. U. Lette; Central Station, J. Miller; Littleton, Mollie Connolly; Petroleum, J. T. Mounts; Sewell Depot, T. S. Woodson.

Trying to Compromise.

NEW YORK, April 15.—The conference between the clothing manufacturers and cutters adjourned to meet again on Thursday afternoon next. The manufacturers practically won the first bout in the fight, the cutters withdrawing the demand made in the preamble of the agreements submitted to the consideration of the conference and the bone of contention throughout the struggle, namely, that the manufacturers should employ only union men. Their propositions will come up for consideration at the meeting next Thursday.

VALPARAISO, Ind., April 15.—Lottie Ingram, an 8-year-old schoolgirl at Whiting, was instantly killed while returning from school while crossing the tracks, her head being severed from her body.

Bolled to Death in Vitriol.

PORTSMOUTH, O., April 15.—James McCarthy, a steelmaker at the Burgess steel works, was frightfully scalded yesterday by falling into a vat of boiling vitriol and water.

GROWING MORE SERIOUS.

The Disturbances Throughout Belgium Hourly Increasing.

BRUSSELS, April 15.—The disturbances growing out of the universal suffrage agitation is hourly becoming more serious. The police made a vain attempt yesterday evening to disperse an enormous crowd outside the People's hall. The crowd resisted and many workmen were wounded. Great crowds afterward gathered in various parts of the city. Tradesmen became panic-stricken and closed their shops. Mounted gendarmes made repeated charges on crowds in front of the town hall and old Corn Exchange. Many persons were seriously injured by being trampled upon by horses.

A mob in the Rue de la Violette extinguished all the street lamps and attacked the police in the dark. A number of shots were exchanged and some blood was shed.

Several newspapers have been compelled to suspend publication because their compositors have joined the strikers. Most of the theaters have closed. The entire civic guard has been ordered under arms and the regular troops are confined to the barracks in readiness for an emergency.

A feeling of dread prevails. It is somewhat lessened, however, by the belief that rioters would have no chance against an armed force.

Reports of disorder continue to come in from the provinces. A veritable battle was fought in Louvain yesterday. The gendarmes became powerless to cope with the strikers, and the authorities had to call on the troops to preserve order.

The Knights of Labor of Charleroi have ordered an immediate general strike.

A desperate encounter took place last night between strikers and the police at Wasmuel, near Mons. Twenty-seven of the strikers were arrested.

During the rioting in one of the streets of this city last night the occupants of a certain wine shop pelted the gendarmes with wine glasses and bottles. A detachment of the gendarmes ordered to arrest the inmates forced an entrance into the shop, dealing out blows indiscriminately with their rifles while other gendarmes stood at the door and struck with their swords those who tried to escape. Many of the inmates received serious wounds, and nine were taken to a hospital.

RAINFALL.

Another Claimant For the Honor of Bringing Water From the Skies.

TOPEKA, April 15.—A. B. Montgomery, president of the Goodland Rainmaking company, has forwarded papers to Washington, asking for a patent on his system of rainmaking. This company claims to have discovered Frank Melbourne's secret, and advertise that they use it to produce rainfall. Two years ago, when Melbourne was making a test at Goodland, in northwestern Kansas, parties broke into his room and took the chemicals which he is supposed to have used, and since that time more than a dozen rainmaking companies have been organized, claiming to have the secret for making rain. Already Montgomery is contracting with farmers in many of the counties in western Kansas, charging on an average \$1,000 per county. Last year some of these companies made a great deal of money out of the rainmaking business, but in no case would they allow the farmers to fix the time for making rain. This created much dissatisfaction, and a suspicion that they were duping the people. It is now alleged that they are governed entirely by the predictions of Professor Hicks of St. Louis and Professor Foster of St. Joseph. When a call is made for rain the rainmakers consult their dates accordingly, allowing three days of grace in which to change the atmosphere with their chemicals, which they send up into the heavens through a stovepipe thrust through the roof of a small board shanty.

MEXICAN EXPORT DUTY.

There Is Popular Disapproval and the Bill Will Be Changed.

CITY OF MEXICO, April 15.—The original bill presented to congress last week imposing export duties on coffee, hides, skins, ore and henequen, is not to become a law. It has met with such remonstrance and disapproval from the progressive element of Mexico, who are interested in building up trade with the United States and other countries, that the ways and means committee of the chamber of deputies has withdrawn it for the purpose of amending it.

The withdrawal of the bill is not supposed to mean that it is to be so completely transformed as to change the character of the duty to be imposed, but it is said that when returned to the chamber it will have assumed a more scientific form.

It is asserted by those opposed to the bill that it is possible to devise an importation tariff which will very materially increase the government's revenues, and that such changes should be made in the importation duties as to render the raising of revenue by export duties wholly unnecessary.

Hung Himself in His Cell.

PITTSBURG, April 15.—Anton Stoldy aged 31 years, hung himself at 11 o'clock yesterday in his cell at the Allegheny county workhouse. Stoldy was demerited. He was committed last October to serve a two years term on a charge of felony. He has been demerited ever since. He hung himself with a rope which he had secured from the broom factory where he worked. He had been dead sometime when discovered.

Arm Torn Off.

CINCINNATI, April 15.—William Devorean employe at Tangeman's paper mill, Lockland, had his left arm torn from its socket while endeavoring to adjust a belt Friday. He died a few hours later. He left a grown family.

OUTLOOK FOR TRADE.

R. G. Dun & Company's Weekly Review.

MOVEMENTS OF MERCHANDISE.

It Has Been Greatly Retarded By a Long and Severe Winter—Labor Controversies Creates Some Apprehension, Still the Volume of Business Is Well Maintained.

NEW YORK, April 15.—R. G. Dun & Company's weekly review of trade says. Railroads have felt the effects of a long and severe winter, and now have a belated and irregular spring to retard movements of merchandise. Labor controversies cause less disturbance but still some apprehension. In the great industries there is evidence that the volume of business is quite well maintained for the season, but not so much evidence of its continuance.

The iron output in April so far was 176,633 tons weekly, against 176,978 last month and 185,492 a year ago, but stocks were reduced during the month at the rate of 14,500 tons weekly, so that actual consumption appears larger than a year ago. Pigiron is steady, though Bessemer is rather weaker. Copper is also a shade lower. Coal has a stronger look, though the output for the year is nearly 900,000 tons greater than last year.

The movement of wool is small and falls below last year's, with uncertainty about future prices, but mills are well employed as yet. Trade in cotton goods was rather disappointing in April. So far the boot and shoe trade is somewhat unsettled as to the advance of 2-2 to 5 cents, which some manufacturers obtain, but May buyers refuse. The shipments continue much the largest ever known.

In speculative markets cotton is a quarter cent lower, the pressure of enormous stocks here and abroad being felt as should have been expected, while reports of increased acreage come from the south.

At Boston trade is satisfactory in most lines with cotton and woolen mills busy, orders for shoes slow at present, and rubber goods less active.

At Philadelphia hardware is quite active; outside orders for dry goods are disappointing, and other trades are dull.

At Baltimore dry goods and clothing are active, and cloakings and shirts especially.

The outlook for iron at Pittsburgh is not so bright, but the glass trade fairly good.

Trade at Cleveland is good, in manufactured iron quite large.

At Cincinnati foundries are active and trade in woodworking machinery is increasing.

Spring trade opens briskly at Indianapolis, and business is good at Detroit.

At Chicago retail trade is heavy, east-bound shipments decline with expected opening of navigation, and receipts of wheat, cured meats and sheep are very large, with heavy decrease in wool, rye, barley, lard, flour and cheese.

At St. Louis free collections in all lines are noted, and especially in dry goods and shoes, and the grocery and clothing trade increases.

At Kansas City trade is good, with large receipts of cattle.

At most southern points trade is only fair, very quiet at New Orleans, with sugar strong and large demand for lumber and building materials.

At nearly all points, both north and south, collections are rather slow for the season, with some what active demand for money at most.

The business failures during the last seven days number for the United States 187, and for Canada 22, a total of 209, as compared with totals of 223 last week and 194 the week previous to the last. For the corresponding week of last year, the figures were 226, representing 191 failures in the United States and 35 in the Dominion of Canada.

GAS COMPANIES COMBINED.

Indiana Natural and Illuminating Gas Company Incorporated.

INDIANAPOLIS, April 15.—The Indiana Natural and Illuminating gas company, of Indianapolis, with a capital stock of \$1,000,000, filed articles of incorporation with the secretary of state yesterday. The objects of the company, as stated in the articles of association, are to prospect and bore for natural gas and to produce artificial gas and electricity for light, heat and power.

The incorporators and directors are C. F. Dieterich, E. J. Jerzmanowski, J. H. Benedict, A. W. Brady, Samuel Thorne, A. B. Proal and John R. Pearson. The incorporators are the present owners of the Indianapolis Natural Gas company. With the exception of Mr. Pearson they reside in New York.

The incorporation of the new company is another step in the movement toward a consolidation of the artificial and natural gas companies of Indiana, which begun several months ago. By this incorporation the Crawfordville Natural Gas company, the Lebanon Natural and Artificial Gas company and the Frankfort Natural Gas company all become one concern and the property of the men who own and operate the Indianapolis Natural Gas company and the Indianapolis Artificial Gas company. The amount paid for the three gas plants has not been made public.

Lumber Burned.

DIAMOND LAKE, Mich., April 15.—The West Michigan Lumber company's yards were destroyed by fire yesterday. Seven million feet of lumber, 600,000 bundles each of shingles and lath and 10 freightcars were burned. The loss will reach \$100,000. The fire was caused by a spark from an engine.

PRESIDENTIAL PLUMS.

A Number of Nominations Sent to the Senate For Confirmation.

WASHINGTON, April 15.—The president sent the following nominations to the senate yesterday:

Richard H. Alvey of Maryland to be chief justice of the court of appeals of the District of Columbia.

Martin F. Morris of the District of Columbia to be associate justice of the court of appeals for the District of Columbia.

Levi H. Manning of Arizona to be surveyor general of Arizona.

John Lafabe of South Dakota to be receiver of public moneys at Rapid City, South Dakota.

William Aughin of Minnesota to be receiver of public moneys at Crookston, Minnesota.

Lucius Q. C. Lamar of Mississippi to be recorder of the general land office.

Robert K. Gillespie of Tennessee to be principal clerk of the public lands in the general land office.

John C. Geraghty of Minnesota to be collector of customs for the district of Minnesota.

Charles H. Miller of Illinois to be surveyor of customs for the port of Galena, Ills.

To be assistant surgeon in the marine service of the United States, Emil Prochazka of Wisconsin.

Richard H. Alvey of Maryland, who is nominated to be chief justice of the newly created court of appeals of the District of Columbia, is regarded as one of the ablest jurists in Maryland. At present he is the judge of the Fourth circuit in Maryland, and he is also chief justice of the Maryland court of appeals, which is composed of the judges of the various courts. He is 67 years of age.

Martin F. Morris, nominated for associate justice of the court of appeals of the District of Columbia, has under an enviable reputation as a lawyer. He is about 60 years of age.

The nomination of Seth Shepard to be one of the associate justices is calculated to cause a commotion in Texas, where Mr. Shepard occupied politically a position approximating that of the anti-snappers in New York. Mr. Shepard's character as a man and a lawyer is unimpeachable.

L. Q. C. Lamar of Mississippi who is made recorder of the general land office, is the oldest son of the late Justice Lamar. He was private secretary to his father when the latter was secretary of the interior in President Cleveland's administration.

Robert K. Gillespie, nominated to be principal clerk of public lands in the general land office, was nominated at the request of Mr. McMillan of Tennessee. Mr. Gillespie is a lawyer of Galatin, Tenn., and a man of about 35 years.

ARABS AND ESQUIMOS.

A Fight on Chicago's Streets in Which Blood Flowed Freely.

CHICAGO, April 15.—The Arabs of the deserts have no love for the Esquimos. That was demonstrated Friday afternoon near the world's fair grounds. Eight Arabs left their village and filled up on American beer. Having despoiled one saloon of its sausages and beer, they started out to find another. At the corner of Fifty-fifth street and Lake avenue they met an Esquimo named Jo Sugarloaf and his four sons. Sugarloaf was on his way to the Esquimo village and was carrying on his back a large trunk twice as large as himself which he had just purchased. The Arabs would not let Jo pass and knocked the trunk off his shoulders. He instantly showed fight, and calling his four sons to follow him proceeded to clean out his assailants.

The five walrus hunters were soon dealing blows right and left and in a short time it became apparent that they were more than a match for the Arabs. Blood flowed freely and Sugarloaf and his sons would soon have driven the attacking party from the field to the great delight of the spectators that surrounded the fighters and whose sympathies were with the smaller party, when a big policeman appeared on the scene and manifesting his authority by a vigorous use of his club, sent the belligerents in opposite directions from the scene of conflict.

MINE WORKERS.

Election of Officers and the Convention Adjourns Sine Die.

COLUMBUS, O., April 15.—The United Mine Workers met at the usual hour yesterday and immediately proceeded to the election of officers. John McBride of Ohio was re-elected president, P. H. Penna of Indiana re-elected vice president, Patrick McBryde re-elected secretary-treasurer, unanimously.

The following members of the executive board were elected: W. C. Wetzel, Kentucky; William Howells, Colorado; J. A. Crawford, Illinois; Thomas A. Farry, West Virginia; John Fahy, Ohio; Cameron Miller, Ohio.

A joint meeting of Ohio miners and mine operators was held to fix upon a basis of prices for the coming year. Definite action was postponed.

Father and Daughter Dead.

JEFFERSONVILLE, Ind., April 15.—Peter Mann, 81 years old, a wealthy farmer of Floyd county, died near this city last night. He was well known throughout southern Indiana. His daughter, Mrs. Sarah Smith of this city, 50 years old, died at the same time of pneumonia.

Railroad Shops to Be Moved.

FORT WAYNE, April 15.—The Wabash railroad shops at Butler, Ind., will be moved to Ashley, Ind., this month. A portion of the men and works will be moved April 23 and the remainder April 30.

SERVIA'S BOY KING.

Alexander I Assumes Control of the Government.

A BLOODLESS COUP D'ETAT.

He Deposits the Regent and Ministers Very Unexpectedly and Declares His Policy—Some Slight Opposition to His Acts But the People and the Army Support the New Ruler.

BELGRADE, April 15.—King Alexander I, the youthful ruler of Servia, who has heretofore governed the country through regents, now rules in his own name. It was a bloodless coup d'etat.

For many months past the situation in Servia has been critical, owing to the abuse of their power by the regents and state officials. Affairs had become so bad that the king determined to take the reins in his own hands. In accordance with this determination, plans were secretly laid by means of which the regents and the ministry would be ousted without opportunity for opposition.

Unsuspectingly the regents and cabinet ministers responded to an invitation to dine in the old palace. When they were seated at dinner, at which the king presided, and after the third course the king rose and said to the regents: "Gentlemen, for four years you, in my name, have administered the kingdom. I thank you heartily for the trouble you have taken. I feel able to administer the power myself, and will exercise it from this moment. I beg you, therefore, immediately to hand me your resignations."

M. Ristic replied that he could not and would not comply with the king's request, which was contrary to the constitution.

The king thereupon left the room and sent an aide-de-camp to demand the resignations of the ministers. As they all remained obdurate he ordered them to leave the old palace and go to the new one to pass the night. In the morning they were conveyed to their residences under guard.

The king has issued a decree dissolving the skupshtina and writs for new elections have been sent to the various constituencies. This latter fact shows that the preparations for the coup d'etat must have been completed some time ago. The new elections will be held April 30.

At 11 o'clock next morning, the king, accompanied by many military and state officials, went to the cathedral where a "Te Deum" was sung in celebration of his majesty's accession to the throne. As the royal party were proceeding to the cathedral a salute of 101 guns was fired from the ramparts.

Last night the king's assumption of power was celebrated with a torchlight procession and general illuminations.

King Alexander proclaimed that he had attained his majority, but, as a matter of fact, the king had not attained his majority. According to the Servian law he does not become of age until he is 18 years old, and as he was born Aug. 14, 1876, he will not be 18 for considerably over a year.

So far, the net of Alexander appears to meet with the approval of the populace. The shops are closed in honor of the event and the streets are thronged with people discussing the situation.

The course taken by the young King Alexander will generally be attributed to the influence of his father and mother, ex-King Milan and Queen Natalie, who have recently been reconciled after many years of discord.

CYCLONE IN LOUISIANA.

Several People Killed and a Number of Buildings Demolished.

THEODORE, La., April 15.—About 1 o'clock yesterday afternoon a cyclone passed near this city, but no damage was done here. It struck the Arcadia plantation of Congressman Andrew Price, a couple of miles distant, and eight negro cabins near the big brick sugarhouse were scattered about in small bits, and the sugarhouse was badly damaged.

The summer residence of Mr. W. H. Price, the congressman's brother and manager of the plantation, was also laid flat. Mr. Price managed to get outside before the building fell on him. A negro servant was caught in the timbers and seriously injured. Two negro children named Carter, aged 14 and 4 years, were killed. Eight Italian laborers were more or less seriously injured as were seven negroes. Two of the negroes died.

On the site owned by Preddin Brothers many cabins and outbuildings were wrecked and a son of T. F. Barnais and a negro lad were killed. Several negroes were injured. The residence of John G. Flather was demolished and he was badly bruised.

Serious damage but no loss of life are reported from Ridgefield and St. Bernard plantations adjoining.

WRECK IN A TUNNEL.

Cablecars Collide and Several People Badly Injured.

CHICAGO, April 15.—The grip of a North Side cabletrain became entangled in a broken strand of the cable at 2 o'clock yesterday afternoon, and half way down the tunnel under the river crashed into the rear of another train, wrecking the rear car and itself. The collision resulted in piling up eight cars in the tunnel in great confusion.

The injured are: Frank Mackey of 81 Twelfth street, right shoulder badly dislocated.

Annie Boas of 485 Ashland boulevard, bruised about the head and shoulders.

Max Boas, same address, badly shaken up.

Unknown woman, cut about the head and badly bruised.

An official list of the members of the lower House of the Fifty-third Congress shows that, with one seat vacant, Democrats have 220 members. Republicans 127 and Populists 8. There's nothing small about the Democratic majority.

The Bracken Chronicle says Judge Coons' many friends down that way all wish him God-speed and good luck in his aspirations for appointment as Consul at Belfast. That is the sentiment of his friends everywhere. There is not a truer and more ardent Democrat living, and he made one of the best and most faithful Judges who ever presided over the Mason County Court.

A certain Louisville member of the State Legislature has been hanging around Washington City for several weeks in hunt of an important office in the Internal Revenue Department. His disregard and neglect of the duties of the position he now holds ought to defeat him for any other office. He is one of those members of the Legislature who seem to regard "public office as a private snap," and draws enough money daily from the State Treasury to pay his expenses at the National Capital.

RIVER NEWS.

The river has been rising steadily for several days.

Limestone Creek was running out strong yesterday.

The Joe B. Williams takes 31 coal boats South in her tow—nearly 1,000,000 bushels.

The total coal shipments from Pittsburg since April 1 amount to about 5,000,000 bushels.

It is expected that the new Andes will be completed by July. She will be modeled after the Hudson, and will be a fast one.

CURRENT TOPICS IN SOCIETY.

The Pickwick Club was entertained at the hospitable home of Miss Lucy Lee Wednesday afternoon.

The many friends of Miss Ethelene Wall are rejoiced to see that she has recovered from her recent illness.

Miss Manie Pearce has returned to her home in Lexington after a pleasant visit of several months to her aunt, Mrs. C. C. Dolyns.

Episcopallians and others are glad to know that Bishop Dudley will make his annual visit to Maysville on to-morrow. The Bishop is universally popular and is welcomed by all.

The choral part of the service at the Church of the Nativity Sunday evening will be "exceptionally fine. Bishop Dudley will be assisted in the service by the rector, Rev. D. D. Chapin, and the Rev. E. H. Ward, of Lexington. The confirmation class will be an unusually large one.

Nothing is more delightful to those who indulge in day dreams, than a ramble among our own romantic hills, and nothing is more restful to a tired brain. How few people are conscious of all the beauty of nature that surrounds them. They only see in their narrow way all that is worn and dilapidated. How I would like to take those people to a spot on one of our beautiful hills, where an almost boundless view is obtained. Just below you are the spires of a quaint little town, nestling among the green hills; flowing in a majestic way past the little town is a beautiful river; and off in the distance as far as the eye can see, the blue tops of the mountains are visible. And suppose it is night when every thing is bathed in a flood of silvery moonlight; you will hear the sounds of guitar and mandolin coming up from the valley below; and if you, my friend, have traveled much or read many romances of the Old World it will not take a great stretch of the imagination to fancy yourself looking down upon some old Spanish or Italian town.

ERASTUS B. CAKE, Pastor.

Mr. JOHN WALSH and Mr. Hndson Austin came near being asphyxiated one night this week while at Bellevue attending the Epworth League convention. They were assigned to the same home and occupied the same room. Mr. Walsh had retired and was asleep when Mr. Austin came in, and on going to bed blew out the gas instead of turning it off. Luckily for both parties, Mr. Walsh was aroused by the feeling of suffocation that soon resulted from inhaling the gas. He realized the situation at once, and opening the door and windows cleared the room.

MASON COUNTY TEACHERS.

Subjects Discussed at the Last Meeting of Their Association.

The last meeting of the association was presided over by President Berry, with Martin McKnight as temporary Secretary.

Miss Gordon read an exceedingly instructive paper on "The Teacher in the Public Schools." The paper gave evidence of much thought and study. It ought to be published, so that it may be preserved in permanent form. The idea which Mr. J. W. Asbury, President Berry and Professor Rowland caught from the paper was that the essential in the public school teacher was "character building."

The question, "Should Pupils be Kept in After School Hours?" was discussed in the affirmative by Professor Swift. His first point was the "justice of the punishment," the second point "the appropriateness," the third point was that "the punishment follows the natural law of the business world," as it requires the pupil to make up the deficiency of the work in school hours. The next point was that this punishment keeps the pupil up with his classes, and the pupil must be persuaded that it is inflicted for his good. The next point is that keeping in is a stimulus to success. The experience of others confirms the wisdom of keeping in and this punishment follows strict business methods.

Professor Hayes Thomas then argued the negative side of the question. He took the ground that the stimulus should come before the recitation, not after. Professor Thomas denied the efficacy of the punishment as to most pupils; the laws of school are different in their nature from those of business, and therefore the latter do not apply. The punishment was as hard on the teacher as on the pupil. It violates the laws of health to keep the child too long at school.

Professor Swift replied to the arguments advanced by Professor Thomas.

At the afternoon session the discussion was continued by Professor Thomas, who read from various authorities in support of his position. Professor Rowland took the same position, namely, that the pupils should not be "kept in." He discussed the question from a psychological standpoint, and gave very strong reasons against the custom, and supported them by a formidable list of teachers who opposed the practice.

Professor Asbury rather differed from Professor Rowland, and took the ground that each case must be decided upon its own merits.

President Berry closed the debate by a resume of the various points made on both sides. Like Professor Asbury, Professor Berry contended that each case is to be determined by the circumstances attending it.

J. T. KACKLEY & Co.

Among the many attractions in the mechanical line at the World's Fair will be the mammoth C. and O. engine No. 390, recently built at the Richmond, Va., shops. The train drawing the massive engine passed west this week on the way to Chicago. It is the largest in the Central States.

HON. JAMES H. MULLIGAN, of Lexington, is still in Washington. A special says: "He has shifted from the Collectorship to a Consulship. He prefers to go to Belfast, Ireland, but is willing to go anywhere else comfortable with his position at home in the blue grass region. He said: 'There is no use applying for the Collectorship. Shelby has it on a string.'"

The members of M. C. Hutchins Camp, S. of V., who attended the institution of a camp at Augusta Thursday night, returned home yesterday morning. They were accompanied by the drum corps. In the party were William R. Helin, Henry Paul, W. C. Rudy, George W. Paul, C. B. Paul, J. M. Paul, Charles Brawner, John Dawson, Henry Chambers, Paul Crane, John F. Fansler, Walter Rudy, E. F. Hill, Beverly Sullivan, J. L. Todd, W. O. Hoops, S. P. Bridges, Jos. Crawford, John Luman.

FOURTH CLASS CITIES.

The Legislature Fixing up a Charter for Their Government—Other Matters of Interest.

The State Senate had a quorum Thursday. The charter for the government of cities of the fifth class was passed, with an amendment providing for civil Police Court sessions once a month.

The charter for fourth class cities was then taken up as a special order, with the Breckinridge substitute. Senator Downer's amendment, providing for the election of electors by the people, was defeated; also his amendment providing for the election of councilmen from the city at large instead of by wards. The liquor license was fixed at not less than \$250 nor more than \$1,000 when drunk on the premises, and not less than \$50 nor more than \$250 for drug license.

The general penitentiary bill was taken up by the House, and Mr. Birkhead offered an amendment to the committee's amendment reducing the appropriation to \$150,000. The committee's amendment made it \$300,000. After a sharp debate the Birkhead amendment was defeated and the committee's adopted. The bill was not completed.

The Secretary of State has sent out a circular to foreign building and loan associations calling their attention to the law, which requires them to pay a license of \$25 before they can operate in this State. The same law requires every agent of a foreign company to pay a license of \$25 before conducting business in the State. None of the companies have complied with the law, and are liable to indictment, fines, &c.

In the House Friday Mr. Peak, of Trimble, introduced an act which provides that it shall be the duty of all officers having knowledge or information of the commission of the offense of setting up or carrying on a keno bank, faro bank, or game of cards or other machine or contrivance whereby money or other things of value may be won or lost, or any person aiding or abetting therein to immediately arrest, or cause to be arrested, such persons, and take them before the proper tribunal, to be dealt with according to law. Any peace officer failing to discharge the duties herein imposed shall be deemed guilty of a misdemeanor, and, upon conviction, shall be fined not less than \$1,000 and confined in the county jail not less than six nor more than twelve months, and shall forfeit his office.

The errors in the educational bill were corrected and the bill passed.

Speaking of the changes made by the Senate in the charter for fourth class cities, the Courier-Journal correspondent says: "The high license feature of the fifth-class charter is also put in this, making the minimum liquor license in all fourth-class cities \$250, and the maximum \$1,000, in the discretion of the boards of trustees. The Republicans fought hard for an amendment requiring trustees to be elected from the cities at large, which, if adopted, would have thrown Danville, Hopkinsville, Shelbyville and others back into the hands of the Republicans, but they were voted down by a strictly party vote. Another amendment requires the police or City Judge to be a practicing attorney, and still another leaves it discretionary with the respective towns whether the Mayor shall be elected by the people or the trustees."

The machinery in White, Haucke & Co.'s tobacco factory is now operated by steam. The engine was put in a few days ago.

A COLORED couple were married in the jail at Owensville last week. The groom was serving a sentence for several misdemeanors, but that didn't deter the dusky Julia. She hunted up a preacher and the ceremony was performed in the prison.

Says the Carter County Bugle: "J. D. Jones, United States Commissioner, has tried and disposed of more than one hundred cases since January 1, against persons charged with violations of the Internal Revenue and Postal laws of the United States."

STATE AGENT CLAYTON, of the Germania Insurance Company, was in Maysville yesterday and promptly adjusted and settled the losses of Mr. Andrew Hunter and M. F. Marsh, occasioned by the recent fire. The damage in each case was small. The Germania is represented by Sallee & Martin, and narrowly escaped several heavy losses by the destructive fire a week ago.

MR. S. A. PIPER, of Mayslick, bought the fine residence of Mr. W. H. Frederick, on East Second street, yesterday, the price paid being \$5,800. The house is one of the handsomest and best constructed in the city, and is pleasantly located on the line of the electric railway. Mr. Piper will move to this city about May 1. He is one of Mason County's best and most substantial citizens, and will be gladly welcomed to Maysville. He is President of the First National Bank.

A cordial invitation is hereby extended to one and all to come and worship with us. D. P. HOLT.

THE fine towboat John Dana was destroyed by fire yesterday morning at Point Pleasant. The crew barely escaped. The fire was caused by the explosion of a lamp. This is the second boat of that name burned of late years, and there isn't a letter "M" in the name either. The superstitions will have to add the letter "D" to the unlucky "M."

THE People's Building Association will open their third series Saturday, May 6th, 1893. VICKSBURG NOT DESTROYED.

The Reported Cyclone Was Only a Severe Windstorm.

NEW ORLEANS, April 15.—The telegraph operator at Vicksburg sending matter south wired at 2 o'clock Friday morning that a cyclone had struck the city and that he must leave the building. When communication was restored it turned out that a severe windstorm had struck Vicksburg, but no damage of consequence resulted. The storm did not assume the proportions of a cyclone.

There was also a heavy shower at Jackson, but no loss of life or property resulted. The wires north of there are down and the surrounding country has not yet been heard from, so it is not known how severe the storm was in the rural districts.

A Corn Results in Death.

MONTREAL, April 15.—David Preston, the mechanical superintendent of the Canadian Pacific railroad, died Thursday night. The cause of his death was a curious one. Some time ago he bought a solution for the purpose of curing corns. He placed some of it on a bad corn. Soon after this blood poisoning ensued, and to save his life for the time being it was necessary to amputate his foot. Exhaustion from the operation caused his death. He was 65 years of age, and one of the best known railroad men in the country.

Plundered the Second Time.

BRAZIL, Ind., April 15.—The general store of Ferdinand Tribble of Newburg was plundered by burglars last night, the thieves securing a large sum of money and a goodly quantity of fine goods. This same store was plundered some years ago and several wagonloads of goods were hauled away and hidden in a strawstack. When discovery was imminent the stack was set on fire.

No One Killed at Rockport.

ROCKPORT, Ind., April 15.—The parties injured in the collapse of the Honig building are all alive. Mr. Frank is only slightly injured. His wife is partially hurt. KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Complete Manhood and how to attain it.

At last a medical work that tells the causes, describes the effects, points the remedy. This is scientifically the most valuable, artistically the most beautiful, medical book that has appeared for years; 96 pages, every page bearing a half-tone illustration in tints. Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Variocoele, The Husband, Those Intending Marriage, etc. Every man who would know the grand truths, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would atone for past follies and avoid future pitfalls, should write for this wonderful little book. It will be sent free, under seal. Address the publishers, Erie Medical Co., Buffalo, N. Y.

TUCKAHOE

Stock Farm!

PTOLEMY, 5:19, full brother to Citizen, 2:23 1/2, and Waymart, 2:27 1/2. By Happy Medium, 4:00, sire of the great Nancy Hanks, 2:04, Riley Medium, 2:10 1/2, Maxey Cobb, 2:13 1/2, and eighty-two others in the 2:30 list.

PTOLEMY's first dam Patsy F., by Mambino Patchen 58, the greatest brood mare sire that ever lived. He sired twenty-two trotters and the dams of seventy-two in the 2:30 list and the grand sire of over one hundred.

Happy Medium is unrivaled by any other sire of speed. There is no better bred horse on earth than Ptolemy. You cannot make a mistake in breeding to him. He has size—being 16 1/2 hands high—is a beautiful dark bay of fine style and action, and is as sound as a dollar. You are liable to get a race horse or bound to get a large, rangy roadster that always sells. His colts now yearlings are all bays, large and fine. Mares sent to him will secure the best of attention. I have plenty of grass, for which no charge will be made the first thirty days while breeding. In breeding to highly bred standard horses you are breeding in and improving your stock.

I also have a fine, large SPANISH JACK that is a sure foal. Gets large and fine colts. Terms \$10 to insure a living colt.

DAILY BULLETIN:

You know how it is your self. Doesn't this picture bring up the good days of your youth? How we did enjoy the turkey mother roasted! Well, let us be thankful for the rare blessings vouchsafed us to-day, and with more mature judgment HENRY ORT proposes your good health and invites your attention to the proverb,

"Enough

Is as Good as a Feast."

But at the same time he invites your attention to his stock of goods, such as

WORK FOR US

a few days, and you will be startled at the unexpected success that will reward your efforts. We positively have the best business to offer in agent that can be found on the face of this earth. \$45.00 profit on \$75.00 worth of business is being easily and honorably made by and paid to hundreds of men, women, boys, and girls in our employ. You can make money faster at work for us than you have any idea of. The business is so easy to learn, and instructions so simple and plain, that all succeed from the start. Those who take hold of the business reap the advantage that arises from the sound reputation of one of the oldest, most successful, and largest publishing houses in America. Secure for yourself the profits that the business so readily and handsomely yields. All beginners succeed grandly, and more than realize their greatest expectations. Those who try it find exactly as we tell them. There is plenty of room for a few more workers, and we urge them to begin at once. If you are already employed, but have a few spare moments, and wish to use them to advantage, then write us at once (for this is your grand opportunity), and receive full particulars by return mail.
